Frontend

React.js, Vite, JavaScript (ES6+), Bootstrap, HTML5, CSS3

Tools

Git, GitHub

Soft Skills

Technical Training, Collaborative Problem Solving, Adaptability, Communication

CERTIFICATIONS

Web Development (JavaScript)

Teens Can Code

EDUCATION

B.Sc. Computer Science

Afe Babalola University (ABUAD)

Ado-Ekiti, Nigeria | Exp. 2027

King's College

WAEC & NECO Certificates

PROFESSIONAL SUMMARY

Final-year Computer Science student at Afe Babalola University (ABUAD) with hands-on experience building responsive, production-quality front-end applications using React and Vite. Strong foundation in software engineering principles, with proven experience teaching technical concepts to others. Seeking a front-end or junior software development role to apply and grow these skills.

TECHNICAL PROJECTS

E-Commerce Web Application (Clone) — Front-End Developer

rey-clone-bootstrap.vercel.app

- Built a fully responsive e-commerce front end using React and Bootstrap.
- Designed reusable, modular components to improve scalability, maintainability, and navigation flow.

Personal Portfolio Website — Front-End Developer

portfolio-react-xi-pied.vercel.app

- Developed a personal portfolio using React and Vite to showcase projects and technical skills.
- Implemented custom CSS animations and transitions to deliver a polished, engaging user experience.
- Diagnosed and resolved deployment issues related to environment configuration and module pathing.

Advice API Application — Front-End Developer

advice-api-iota.vercel.app

- Built a web application that consumes a third-party REST API to fetch and display dynamic content.
- Handled asynchronous data fetching, response parsing, and error states for a smooth user experience.

PROFESSIONAL EXPERIENCE

Teens Can Code — SIWES Intern / Software Development Trainer

- Delivered foundational software development training, breaking down coding concepts into practical, easy-to-follow modules for students.
- Collaborated with a team to structure training materials and improve codebase organization for instructional use.
- Gained hands-on experience applying technical theory to real development workflows.
